

# Colorado State Forest Service Urban and Community Forestry Success Story

**Project Title:** Tree City USA Book

**Project Emphasis:** Program Awareness

**Project Location:** Statewide

**CSFS District:** All

## Project Narrative:

In 2006, the Colorado State Forest Service Community Forestry Division published the third annual booklet recognizing the accomplishments of Tree City USA communities located throughout Colorado. Ninety-three communities were certified in 2005 as qualifying for Tree City USA this represents over 75% of Colorado's population. Benefits of being a Tree City USA are many. It promotes healthy community development, generates awareness on the economic, social, and environmental importance of urban forests and highlights communities that have

benefited from their involvement in the program.

The booklets were sent to the ninety-three Tree City communities, made available to each legislator at the State Capitol, and sent to Colorado State Forest Service District offices around the state.
